Pianist / vocalist / composer Warren Byrd is a Hartford native with an international touring schedule after many fruitful years playing Jazz throughout Connecticut, Southern New England, and New York. He began composing music at about age 11. Warren grew into a passion for bebop jazz, especially the music of Charlie Parker, Oscar Peterson. He became known as one of the busiest, most versatile musicians in Hartford county. His deep respect for all arts, his experiences in the theatre as a youth, his work with Dance, his extensive touring schedule, all kinds of gigs and performances of diverse styles, his willingness to absorb old and new, his curiosity of all artifacts of the human spirit may be reflected inversely in his work motto.
