

Household Waste Disposal & Recycling: An Opportunity for Hartford's Neighborhoods

Improper household waste disposal, illegal dumping, litter, and blight are all problems in our neighborhoods. Recycling, neighborhood clean-ups, and proper disposal of toxic and other waste can contribute to economic development, public safety, a better environment, and the health of our residents and communities. Join us for this action-oriented discussion and be part of the solution! Speakers include representatives from Keep America Beautiful, City of Hartford, Community Court, and Neighborhood Organizations.

Thursday, February 13, 2014

Light Refreshments - 5:30pm

Program - 6:00pm

Hartford Public Library

500 Main St
